

### **Job Spec: Senior Dynamics NAV Consultant**

ProStrategy, a leading NAV Gold Microsoft Partner has been implementing NAV for over 20 years on an international scale. Working with NAV 4/2009/11/13/15/18 across several industries including manufacturing & retail. This role has become available due to our continued growth. This is an outstanding opportunity for a Functional Consultant to work with the latest technology the market has to offer (NAV 2018/BC). An opportunity to work with a team as well as working on your own whilst delivering the highest standard of service to clients.

### **Responsibilities**

- Deliver world class solutions. Work with clients and lead successful implementations of Dynamics NAV using industry best practices
- Perform the role of functional and project lead for projects where Dynamics NAV/BC is the key application within a turnkey solution.
- Perform the Role of Pre-Sales, working in conjunction with Sales and the Practice Leads.
- Ability to turn customer requirements into meaningful, workable business solutions. Work with Customers to understand their business requirements and scope out application configuration, modifications and custom development
- Make functional recommendations for installation, modifications and custom development for NAV projects
- Functional design, implementation and testing of core Dynamics NAV granules and add-on's
- World class communication skills. Communicate effectively in all mediums and to all levels within client organization during Analysis, Implementation and Go Live Phases

### **Qualifications & Required Skills**

- Minimum of 5 years Dynamics NAV/BC Senior Consulting experience & full lifecycle Dynamics NAV 2011/13/15/18/BC implementations
- Certification in Dynamics NAV/BC
- Has performed the role of Pre-Sales support
- The successful candidate must work well in a team environment while being a resourceful, independent self-starter able to work effectively with minimal direction.
- Experience participating in Work Scoping & Estimation for new projects
- Excellent planning and organization skills
- As a NAV Lead, the candidate will need excellent communication skills, both written and verbal. Good client-facing skills are also key. They will also need to have the ability to communicate to CFO level
- Ability to establish priorities and work independently
- Strong analytical skills
- Customer relationship building skills and experienced consulting skills
- Proven ability to take a customer's concept to Go Live with solid experience in change management and business process mapping
- Strong customer relationship skills
- Ability to work with clients onsite.
- English: Fluent
- Driving Licence and Car
